

FIX

Exchange Connectivity

EPAM Systems offers a wide range of exchange connectivity products and services. Our products are highly optimized to work with FIX and binary protocols for processing market data, transact orders and capture trades. Clients get easy to use common API to deal with variety of exchange interfaces. We maintain strategic partnerships with exchanges, constantly monitor changes in protocols and invest in ongoing research.

*List of supported options and derivatives exchanges**

* All connections are certified and have been used in production for years.

Full list of certified connections is available at: <http://www.b2bits.com/consulting/hosting.html>
